

Impact Analysis Statement

Summary IAS

Details

Lead department	Department of Local Government, Water and Volunteers
Name of the proposal	Review of accepted development requirements under section 1014(f) of the <i>Water Act 2000</i> .
Submission type	Summary IAS
Title of related legislative or regulatory instrument	The regulatory proposal relates to the following: • Accepted development requirements for taking overland flow water for stock or domestic purposes, or using limited capacity works • Accepted development requirements for taking overland flow water to satisfy the requirements of an environmental authority or a development permit for carrying out an environmentally relevant activity • Accepted development requirements for sub-artesian bores or replacement bores • Accepted development requirements for the construction of new levees or the modification of existing levees.
Date of issue	June 2026

Proposal type	Details
Minor and machinery in nature	The Chief Executive is publishing updated Accepted Development Requirements (ADR) in accordance with section 1014(f) of the <i>Water Act 2000</i>. This proposal is minor and machinery in nature. It does not make substantive regulatory or policy changes and does not increase the regulatory burden or costs for water entitlement holders, businesses or the community. The following updates have been made to the four ADR documents: • moving the documents into new templates to reflect updated branding and department names • minor amendments to improve clarity and legislative consistency.

*Refer to [The Queensland Government Better Regulation Policy](#) for regulatory proposals not requiring regulatory impact analysis (for example, public sector management, changes to existing criminal laws, taxation).

Signed

A handwritten signature in black ink, appearing to read 'Blagoev', with a long, sweeping horizontal stroke extending to the right.

Bronwyn Blagoev
